

Fast conversion to SAP S/4HANA with the abat Conversion Accelerator

Are you planning to switch to S/4HANA?

- They want to benefit from the innovations of S/4HANA.
- You want to quickly migrate to the new S/4HANA platform and subsequently use it for continuous innovation cycles.
- The existing SAP system with organizational structures and processes is to be largely retained.
- You need transparency and planning certainty for conversion as the first step in the changeover.

The abat S/4HANA Conversion Accelerator

- After completion of the Accelerator project, you have 100% transparency about
 - the concrete implementation steps for your S/4HANA conversion,
 - the implementation period,,
 - required resources and costs.
- You can start with the conversion immediately afterwards.
- You have a sound plan to complete your conversion project in time + budget.
- You have created all the conditions to implement the project in a structured manner and in the shortest possible time.

abat is one of the leading SAP service providers for the automotive and manufacturing industries in Germany. The abat S/4HANA Conversion Accelerator bundles our knowledge of existing SAP systems as well as our experience and tools from numerous S/4HANA conversion projects.

Here's how we do it:

- Tool-supported analysis of your system with regard to prerequisites for S/4HANA conversion.
- Tool-supported „deep check“ of the existing custom code.
- Evaluation of results and derivation of implementation steps by abat expert network.

We deliver these results:

- Final confirmation of technical feasibility.
- Detailed implementation planning (epics on the timeline).
- Creation of a backlog down to the task level.
- Possible innovation potential, specific to the system and processes under study.
