

Company Profile abatUS

Holistic and flexible: SAP Solutions for the American Market

With an office in Birmingham (Alabama) and a presence in Detroit (Michigan), abatUS represents the abat group in the United States of America. The service offering is primarily geared towards German companies which have a US subsidiary or are planning to open one. abatUS supports OEM's and suppliers holistically and flexibly with regard to SAP solutions – starting with project planning and conceptualizing all the way to implementation, training and maintenance. Because abatUS is part of the German abat Group we are capable of servicing our clients in German and English languages.

Our emphasis is:

- **Consulting and development for Logistics and Automotive**

The abatUS team is specialized in a holistic and flexible approach for SAP consulting services and developing SAP solutions. With the portfolio of abatUS customers can not only exploit their growth potential in the US market but also increase it.

- **Process optimization with SAP solutions**

abatUS supports companies to continuously improve their processes – lowering cost.

- **Application Management Services for SAP – Near- and Offshore**

In close collaboration with the abat offices in Mexico and Belarus, abatUS offers a 24/7 application management service for SAP solutions. Locally German, English and Spanish speaking SAP experts are available

References

- Software development and process planning for Mercedes-Benz Warehouse, Tuscaloosa, AL
- Project planning, software interface to SAP and SAP certification for an external tax engine by EZTax, Kansas City, MO – one of only four SAP certified providers for tax solutions in the US.
- Process optimization, user training and providing highly qualified SAP consultant to Weidplas, Auburn, AL – a German manufacturer of plastic components.

Advantages for customers:

- abatUS consultants know the regional requirements locally as well as in Germany. They are able to implement the SAP solutions running in Germany at US sites even if the systems documentation is only available in German.
- SAP support is available on 24/7 base
- To deliver the best price performance ratio, abatUS collaborates with MEXabat
